CROP INSURANCE

NEWS

January 7, 1966

The year 1965 is now history. I hope it was a good year for all of you.

The farmers of North Dakota enjoyed their fourth consecutive year of generally good crops and as a result our insurance experience was very favorable. Of course, as in every year, individual farmers in some localities experienced crop losses for which we paid indemnities totaling nearly a million dollars.

Now we are beginning the year 1966. It's customary to enter a new year with optimism and expectation. I expect 1966 to be a banner year for Federal Crop Insurance in North Dakota and pledge to do all that I can to make this expectation a reality. I ask that each and every one of you do the same.

We had a good product in 1965 and it's better in 1966. Federal Crop Insurance was the only source of all-risk crop protection in 1965 and this is still true in 1966. We might do well to consider this if we ever find ourselves in need of some "reselling".

Reinstatements and sales work will be the number one subject from now until the closing date. As you will note, in this first report of sales and cancellations, we have a lot of work to do. Compared to a year ago at this time we have fewer sales and more cancellations. However, I have every confidence in your abilities and am optimistic about the final outcome of our 1966 sales campaign.

Thought for the week: Giving our best today is the recipe for a better tomorrow.

H. B. Schomberger

Sales

Our efforts during the past week didn't make a big impression on the crops sold to date column. If the typing error had been the correct total, then we would be in a real good shape. Some re-instatements were made, but the cancelled columns still show an increase for the week. These should now be reduced as the cancellations should all be processed.

We know that your efforts will be increased during the coming weeks and that the sales totals will start climbing upward.

Thought for the week:

Happiness--a sensation you get when too busy to be miserable.

Sales -

We are beginning to gain ground on our 1966 campaign. The net acres lost did not increase this week and has been reduced by nearly 3,000. Reinstatements and increased sales account for this.

Director Piehl's district was the leader for the week, but Olson's district was close behind. What will next week show?

Only three reports failed to reach us in time, but we need 100% every week. Remember--your report should be prepared on Friday night or at the latest on Monday morning.

Reconciliation of Accounts -

Please complete as soon as possible so that we can turn the accounts over to ASCS without delay. Please watch for possible refunds, and advise us of those that should be made.

Thought for the week: Every day gives you another chance.

U. S. DEPT. OF AGRICULTURE

Sales -

Directors Piehl and Jorgensen have the same number of crop sales for the week. Jorgensen's District nosed out Piehl's in acres sold by a narrow margin.

In spite of the bitter cold, sales and reinstatements were made; and as a result we gained about 10,000 more acres. We are making progress.

The number of "no reports" for the week was entirely too high. We need your report and we need it on time. Please get these in.

Accounts -

If you have not reported, do so immediately. No accounts can be turned over to ASCS until the reconciling is complete. Please answer any requests for information promptly.

Thought for the week: One always has time enough if it is used well.
